

# Mount Si High School's College Credit Classes for 2010-11

Students can receive college credits in the high school classes listed below!  
College credits can be earned at Bellevue College, Lake Washington Technical College, or  
Shoreline Community College *in addition* to the high school credits.  
This is known as a dual-credit program for students. And it's free!

To earn the free college credits, a student needs to:

- 1) Register for the class at [www.CollegeCreditCareersNetwork.org](http://www.CollegeCreditCareersNetwork.org) during the school year when they are taking the class *and*
- 2) Earn a grade of "B" or higher.

The student will earn college credits through this statewide program and receive a college transcript in late summer. These credits can also be used as college transfer credits, which means the earned credits can be transferred to another college.
